## Thoughts From The Hon. Secretary's Desk

Shri Ramkrishna Seva Mandal, a dream cherished by Shri Gordhanbhai Patel (Vakilsaheb) is being realized till date by us.

We started with the philanthropic public healthcare as our social motive and then extended our services into the education scenario which was much required for faster upbringing of society in a developing country like ours. Today, we have established 28 Institutions having multidimensional capabilities in education and social services.

We have pioneered in every aspect of social reforms with our priority being quality services provided to all strata of society. As we reflect '**Bahujan Hitay, Bahujan Sukhay**' as our motto. The value system that drives our belief stresses managerial competence with an ethical approach based on honesty, dedication, social justice and natural openness.

We have fostered an environment which is conducive to including these moral values among students and through them in the society. We have been proactive in our approach towards changing face of society and have embraced the latest technological trends in our stride of growth. We have escalated our activities and are nurturing the young minds of our country to go out and make a mark on the global competitive platform.

We, together strive for excellence in every aspect performed through constant hard work and dedicated teamwork.

**Jyotsnaben K. Patel**  
Secretary, Shri Ramkrishna Seva Mandal, ANAND.

### Shri Ramkrishna Seva Mandal

Shri Ramkrishna Seva Mandal (SRKSM) is a registered body under the Societies Act and was established as a public trust in 1954.

At present, SRKSM is managing more than 25 academic institutions from KG to Post Graduate Schools effectively and efficiently.

The Hon. Secretary, Smt. Jyotsnaben K. Patel is a source of inspiration by her ever readiness to extend her dynamic leadership as a guiding factor.

## **Message From The Principal**

It is my pleasure to introduce promising and talented programmers to the IT industries and play our part in being the main representative who will be responsible for giving direction to the course the next IT generation will take. Whereas IT and IT schools give the vision and direction, AIIS plans and implements the strategy to give the visualization and mould it. To us, the students with their vast talent pool of unexploited ideas and enthusiasm will be the means of these changes.

AIIS with its contemporary curriculum, faculty members having comprehensive computer acquaintance and co-curricular activities that help the youth enhance their development as well as managerial capabilities to emerge as complete winners.

We at AIIS keep pace with the constantly changing scenario of IT industry and provide the state of art hardware and train them for the current software which is in demand by the industrial fraternity.

We have tried to mentor the student with involvement and ardor and we wish them to evolve as industrial path bearers who would proudly remember AIIS as their alma mater.

**Chhayaben Patel**  
Principal  
Anand Institute of Information Science,  
Anand.

## About AIIS

Anand Institute of Information Science, Anand is Accredited 'B' grade by NAAC with CGPA of 2.57, and is affiliated to Gujarat Technology University, Ahmedabad and Sardar Patel University, Vallabh Vidyanagar. The institute is approved by A.I.C.T.E., New Delhi. The institute was established in Sept. 2001, with a view to imparting computer education to young students of surrounding areas and from all over Gujarat. The Three-year full time M.C.A programme has an intake of 60 students. Since inception our institute is privileged by the care, guidance and nourishment from the management of Shri Ramkrishna Seva Mandal.

## AIIS : Facilities And Resources

### LIBRARY

AIIS library has extensive and thoughtfully selected books on different fields of IT. The library subscribes various periodicals like: Information Technology, Living Digital, Electronics for you, Voice & Data, Data Quest, Linux for you, Network magazine, CSI communication, etc.

International journals are also available: Linux Journal, S/W Development, MSDN, Network Computing, Dr. Dobb's, etc. The services rendered by the Library include reading reference books, bibliography and general awareness.

### COMPUTER LABORATORY

The institute has a state of art computer laboratory with around 150 computers that provides the students a large scope of exposure. All the machines have the latest configurations and the latest software is made available to the students to make them techno savvy.

The system is expected to motivate the students towards excellence by continuously monitoring their performance and providing them timely feedback. The students are evaluated on the basis of class participation, class evaluations, home/class assignments, presentation, internal examination and final examinations.

## FACULTY

We at AIIS have the most distinguished faculty and supporting staff, comprising senior visiting academicians, practicing professionals from industry and young brains bursting with new ideas. The faculties believe that in a learning process the mutual exchange of ideas is essential between students and knowledge imparter. Environment that brings about informal discussion of student's progress and academic queries is nurtured at AIIS.

## OTHER ACTIVITY

Besides regular studies the Institute also organizes a 'Orientation Program' for MCA first semester students to induct them and extra curricular activities like quiz, programming contest, seminar on current trends by industrial professional of computer field, workshop about latest trends, poster competition and cultural activities.

# Syllabus Structure For MCA

## FIRST SEMESTER (SPU)

- MCA 101: Mathematical Foundation of Computer Science
- MCA 102: Computer Programming and Problem Solving
- MCA 103: Logical Organization of Computers
- MCA 104: Database Management Systems
- MCA 105: Business Applications
- MCA 106: Practical based on 101 to 105

## SECOND SEMESTER (SPU)

- MCA 201: Computer Network – I
- MCA 202: Systems Analysis and Design
- MCA 203: Data Structures & Advanced Programming Concepts
- MCA 204: RDBMS and Client Server Computing
- MCA 205: Statistical and Optimization Techniques
- MCA 206: Practical based on 201 to 205

## THIRD SEMESTER (SPU)

- MCA 301: Operating System Principles
- MCA 302: Object Oriented Technology-Java
- MCA 303: The .Net Technology
- MCA 304: Analysis and Design of Algorithms
- MCA 305: System Software
- MCA 306: Practical based on 301 to 305

## FOURTH SEMESTER (SPU)

- MCA 401: UNIX and Windows Programming
- MCA 402: Compiler Design
- MCA 403: Computer Networks – II
- MCA 404: Software Engineering
- MCA 405: Modern Business Practices
- MCA 406: Practical based on 401 to 405

## FIFTH SEMESTER (SPU)

- MCA 501: Elective
  - ELE1: Trends in Information Technology
  - ELE2: Bioinformatics
  - ELE3: Wireless Networks
- MCA 502: Artificial Intelligence Methodologies
- MCA 503: Distributed Systems, Parallel Computing and Simulation
- MCA 504: Business Information Systems
- MCA 505: Computer Graphics and Multimedia
- MCA 506: In-house Project and Seminars

## SIXTH SEMESTER (SPU)

- MCA 601: Industrial Project

SPU: Sardar Patel University - Vallabh Vidhyanagar.

# About MCA Sixth Semester Project

Students have to undertake six months full time project work as a part of their MCA curriculum in the sixth semester. The project work has to be done in industry / institute to get hands on experience of industrial working style and acquaintance to software development and clientele. Students should work full time under the guidance of an employee of the organization to develop software for the organization. Throughout the project duration student have to send fortnightly reports about their current project status. On completion of the project students have to submit a documentation of the project work done and give a presentation for the same. Result is declared based on regular submission of reports, contents of documentation and presentation skills.

## Students' Practical Insight Initiative:

During the fifth semester of the MCA course the student undertake six months in-house system development. This gives students a good exposure to various stages of the software development life cycle along with application of business logic.

## Students' multi-dimensional contribution:

Students have capability to learn and get accustomed to any new tool or technology in short time span and are enthusiastic to learn more so students contribute to an organization by:

- In designing new systems
- Studying existing system and redesigning it
- Migrating system to different platforms learning new tools
- Working in team to build some essential modules

## Our Initiative to Help:

Our technical and teaching staff may be approached by the supervisor / guide and students for any assistance needed during any stage of the software development.

AIIS computer laboratory and library facility may be extended to the students during institute work hours.

The guides would explicitly monitor the work done by the students in the organization by studying the fortnight reports sent by the students.

Beside this different faculty members assigned internally shall do an implicit evaluation of the student's work.

For any interaction or queries project guides/supervisors can contact faculty members of the institute.

## Our sincere urge to the Organization / Institute:

Since this is the first exposure of the students to the real industry, the organization may provide them guidance in multiple ways:

Organization is requested to provide general idea about the project definition given to the student and computational resources as per requirement.

Organization should oblige by assigning a guide/supervisor for the student(s), so that they get continuous monitoring and guidance for the project. For any kind of further assistance organization may contact the institute.

# Project Schedule

Project Starting Date	1-December-2010
Project Ending Date	31-May-2011
Project Duration	6 Months
Project Status Reports	Joining Report & Monthly Reports (1 + 6 = Total 7)
Documentation Submission	1st week of June 2010 ( 2 hard copies and a soft copy on CD )

# Placement Cell

IT has become a critical tool for economic, business and social development and will play a pivotal and catalytic role in overall progress. The Institute believes that involvement of the industry with the academics is will be a major driving resource for this development. To facilitate this we have formed a placement cell and our goal is to achieve the best offer for the students and give companies a better opportunity for candidate selection.

The placement cell is coordinated by **Mr. Himanshu N Patel**.
